CEA Project Logistics prides itself in the business of packing and custom crating cargo safely, securely and professionally. We have been serving the ASEAN region and beyond for over 15 years.

Our team of packaging professionals work closely with our transport engineers to ensure packages are designed to be conducive with the appropriate mode of transportation. Our facilities are ideally located in the heart of Laem Chabang Port Thailand, this gives us a definite advantage in packing and crating any type of goods for global export.
