CEA can offer a complete solution for drill pipe storage, handling and transportation. Our facilities are strategically located inside Laem Chabang Port and only 5km from the Sriracha Deep Sea Port making them convenient, accessible and cost effective.

We can provide 115,300m<sup>2</sup> of open gravel hard stand storage and 12,800m<sup>2</sup> of covered warehousing of which 5,000m<sup>2</sup> is climate controlled.

## Features and facilities available

- Secure floodlit open storage, with all pipe and equipment stored to API and Health and Safety Executive Regulations
- Mobile cranes, forklift and other MHE onsite to allow efficient loading and offloading
- Short and long term client segregated storage laydown areas
- Fully trained and certified cargo professionals
- Dedicated inventory systems available.

Our facilities are manned by project cargo professionals with vast experience in the consolidation and transportation of drill pipes and accessories. This experience in the marketplace means CEA can deliver a high quality service, delivered to tight deadlines.
