PROTECTIVE HEADWEAR

PROTECTIVE HEADWEAR

SAFETY PROTECTION STARTS FROM THE TOP. WE'VE GOT YOU COVERED WITH OUR HARD HAT RANGE.

Hard-hat head protection is required on most work sites around the world and Prochoice is proud to offer an unprecedented selection of colours, styles, ventilation and adjustments that will suit every application. Our range is tested and Certified to the highest standards. It isn't just the range of models that make our hard hats range so adaptable, it's the availability of the Prochoice accessories that integrate seamlessly onto all our models. These include attachable face shields, hearing protection and sun shields to name a few.

Increasingly companies are using hard hats to identify their company and positions within the work force. To meet this requirement, ProChoice offer a range of pad printing and vinyl printing services that can be applied to your hat.

STANDARDS

ProChoice hard hats meet Australian Standards and are:

- AS/NZS 1801 : 1977 Occupational protective helmets

In addition to any instructions provided with the hard hat users should refer to :

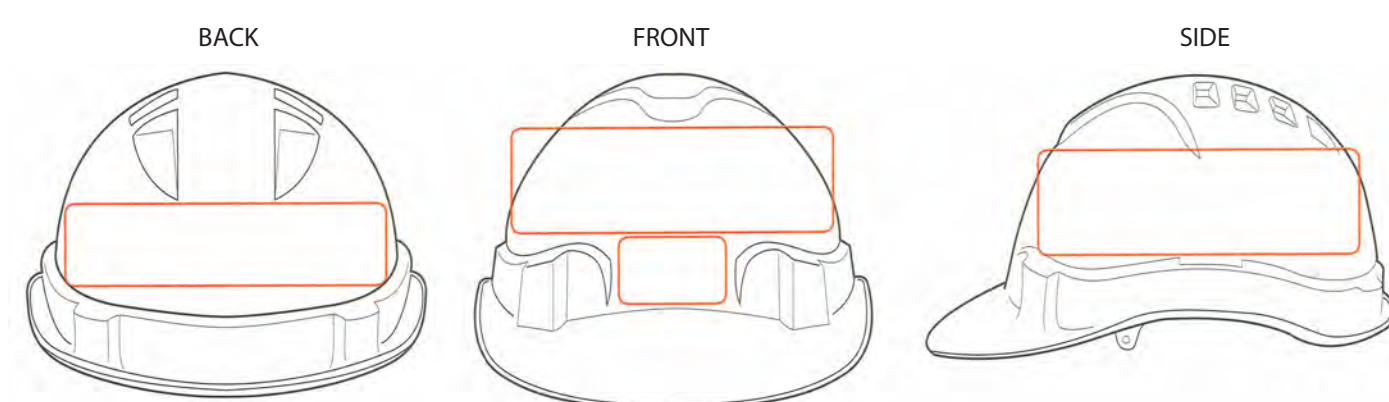

- AS/NZS 1800 : 1998 Occupational protective helmets: selection, care and use

A hard hat protects the head from injury by falling objects, impact against moving and stationary surfaces, debris, bad weather and electric shock. The internal webbing on ProChoice hard hats, distributes the weight of the helmet evenly (and therefore the shock of impact) over the entire surface area of the helmet and top of the head. The internal harness also provides a 50mm "buffer zone" between the shell and the head to further absorb shock.

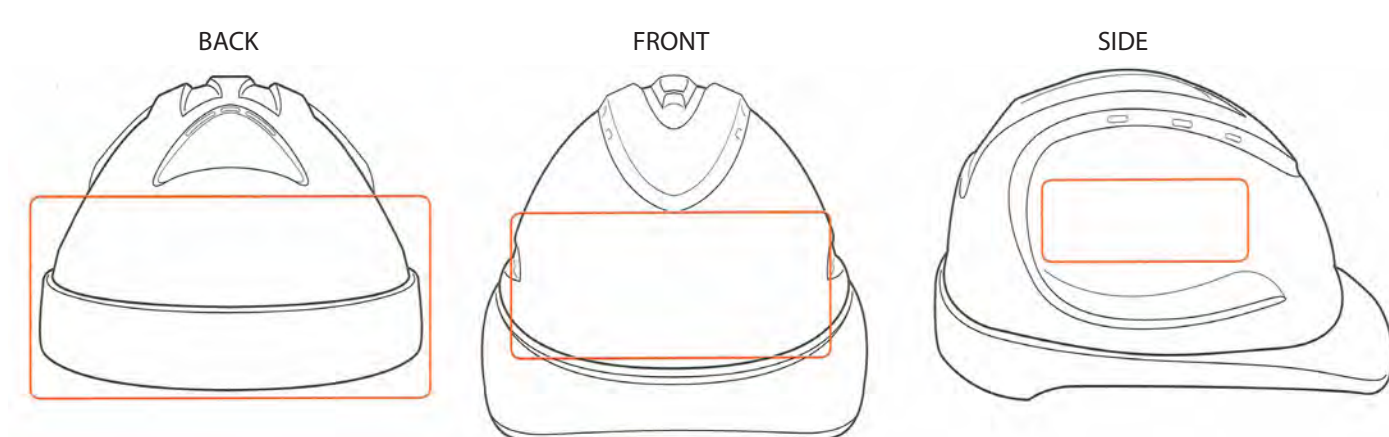

FEATURE COMPARISON

FEATURE	V9 MODEL	V6 MODEL
1 Peak	Short peak stylish with extra visibility when looking upward	Long peak greater eye and face protection from weather elements [sun, rain etc.]
2 Shape	Low profile modern design	Classic system and pinlock system
3 Harness	Pinlock system	Prolock system and pinlock system
4 Vents	9 Air vents on vented version only - model HHV9	6 Air vents on vented version only - model HHV6
5 Printing Points	14 Custom printing points 70mm wide print area on front of hard hat	24 Custom printing points 50mm wide print area on front of hard hat

V6 RANGE PRINTING AREAS

V9 RANGE PRINTING AREAS

The allocated print areas for both models are indicated above

V9 UNVENTED HARD HATS

HH9

FEATURES

- Lightweight, colour range of unvented hard hats
- Individually packaged
- Colours can be assigned to location, job or industry
- 6 point PinLock harness
- Impact resistant ABS material
- Sold Individually

V9 VENTED HARD HATS

HHV9

FEATURES

- Lightweight, colour range of vented hard hats
- Individually packaged
- Colours can be assigned to location, job or industry
- 9 air vents
- 6 point PinLock harness
- Impact resistant ABS material
- Sold Individually

V6 PINLOCK HARNESS

HHHPI

FEATURES

- 6 point PinLock harness
- Webbed cradle for improved shock absorption
- Sold Individually
- Also available V9 PinLock Harness HHHPI-V9
- Sold Individually

V6 PROLOCK HARNESS

HHH

FEATURES

- 6 point harness to suit ProChoice hard hat models HHV6 and HH6
- Lightweight replacement harness
- Cost effective solution - change harness only
- Sold Individually

DETACHABLE HARD HAT BRIM

HHB

FEATURES

- Durable poly-cotton
- Excellent sun protection with neck flap
- Sold Individually

BUMP CAP

BCBG

FEATURES

- 65% cotton / 35% polyester baseball style cap
- Foam padded insert protects against bumps and scrapes
- Stylish two tone design
- Eyelet holes for ventilation and comfort
- Lightweight
- Full adjustable to allow a perfect fit
- One Size: fits all
- Complies to EN812 - Industrial bump cap standards
- Sold Individually

V-GARD® PROTECTIVE CAP by MSA

MSA4753-C

FEATURES

- Polyethylene shell provides superior impact protection
- Self-adjusting crown straps ensure a comfortable fit
- Available in a variety of colours and sizes

V-GARD® PROTECTIVE HAT by MSA

MSA4753-F

FEATURES

- Polyethylene shell provides superior impact protection
- Self-adjusting crown straps ensure a comfortable fit
- Available in a variety of colours and sizes
- Custom imprinting and striping options
- Lightweight protection

CHINSTRAPS FOR MSA HELMETS by MSA

MSA88128

FEATURES

- 2, 3 and 4-point chinstraps available
- Non-metal chinstraps keep helmets in place
- Attaches directly to shell or suspension
- Flexible construction and adjustable design for long-wearing comfort
- Available in cotton, polyester, nylon or Nomex® webbing
- Sold Individually

HARD HAT CHIN STRAP

HHCS

FEATURES

- Adjustable hard hat chin strap
- Keeps hard hat in place in active situations
- Comfy elastic material
- Sold Individually

EYEWEAR PROTECTION

EYEWEAR PROTECTION

NO MATTER WHAT YOU DO FOR A LIVING, YOU ARE ALWAYS USING YOUR EYES. PROTECT THEM.

Eye injuries in the workplace are very common, as the National Institute for Occupational Safety and Health (NIOSH) records and reports job related eye injuries that require medical treatment each day. However, safety experts and eye doctors believe the right eye protection could have lessened the severity or ever prevented 90% of these eye injuries.

Simply using the proper eye protection on the job could prevent thousands of eye injuries each year. Two major reasons workers experience eye injuries on the job included not wearing any eye protection and the second reason was because they wearing the wrong kind of eye protection for a particular job.

Over the past 15 year, Pyramex has experienced phenomenal growth through a combination of understanding production and service. Some of the largest companies in the world trust Pyramex products to protect their most important asset, their employees

STANDARDS

Pyramex constantly tests its products to meet the following standards or requirement. Please call your representative for detailed test results.

ANSI Z87.1 High Impact

Cert.Mod. CAN/CSA Z94.3-07

HIGHLANDER

SBB5010DT

FEATURES

- Clear lens with black frame (Anti-Fog)
- Lightweight sports styling
- Headband provides goggle fit in a stylish glass
- Can be worn with inner foam for additional dust protection
- Scratch resistant lens provides maximum protection
- Protect against 99.9% harmful UV rays
- Inner lens clip provide soft foam for comfort fit and extreme styling

XSG

GB4010ST

FEATURES

- Clear lens with black strap/temples
- Design allows air to flow freely reducing heat
- Lenses are treated to prevent fogging scratching and static
- Provide 99.9% protection against harmful UV rays
- Flame resistant foam padding forms a seal to keep out dust and airborne particles
- Strap has quick fit retainer for easy on/off
- Interchangeable temples/strap included with each pair

ONIX PLUS

SB4950STP

FEATURES

- Clear lens/ 5.0 IR filter flip lens with black frame
- 3-angle adjustable flip lens allows users to freely adapt to different working procedures
- Unique outer flip lens system provides users with multiple options. Flip the outer lens down for applications where tinted or IR lenses are needed
- Adjustable Nosepiece provides 3 different angles, allowing the user to find the most comfortable fit

SOLO

S510SJ

FEATURES

- Jumbo Size: clear lens/ Frame combination
- For use over prescription spectacles
- Lightweight and economical
- Lenses provide 99.9% protection against harmful UV rays
- Temples are vented to reduce fogging

DEFIANT

SB1010SJ

FEATURES

- Jumbo Size: clear lens with black temples
- For use over prescription spectacles
- General purposes for indoor applications that require impact protection.
- Offers protection from excessive glare.
- Scratch-resistant lenses
- Provides 99% protection from harmful UV-A and UV-B rays.
- 100% polycarbonate lenses

INTEGRA

Clear Lens: SB410S Grey Lens: SB420S

FEATURES

- Offers protection from excessive glare.
- Provides 99% protection from harmful UV-A And UV-B rays.
- 100% polycarbonate scratch-resistant lenses.
- Single lens and adjustable temples ensure reliable performance.
- Select frames available with ratchet adjustment temples.

HEARING PROTECTION

HEARING PROTECTION

HEARING DAMAGE IS PERMANENT.
PROTECT YOUR EARS WITH OUR
EXTENSIVE RANGE OF PRODUCTS.

Noise-induced hearing loss is permanent. It is also 100% preventable through the successful application of physical changes to the work environment and by wearing of Certified protection devices such as earplugs or earmuffs.

Exposure to hazardous noise levels at work (industrial noise) and play (music ear-phones and traffic) causes permanent hearing impairment.

STANDARDS

The SOUND LEVEL CONVERSION (SLC 80) rating as applied to hearing protection devices (HPD) is a simple number and class rating derived from a test procedure outlined in the Australian/New Zealand Standard, AS/NZS 1270: 2002.

It provides a simple number guide to the level of noise attenuation (reduction) that can be expected from a particular HPD.

The SLC value includes a correction to ensure that the stated degree of noise reduction is obtained on 80% of occasions. Hence the SLC 80 rating.

PROBULLET™ DISPOSABLE UNCORDED EARPLUGS

EPOU

FEATURES

- Class 5, SLC80 27dB
- Disposable, PU foam
- Hearing protection for noise levels to 110 dB(A)
- Pairs packaged in individual poly bags
- Qty/Box: 200 uncorded pairs

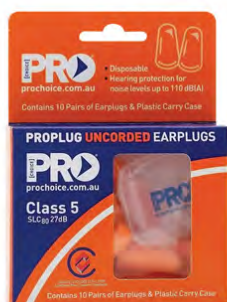

PROBULLET™ DISPOSABLE CORDED EARPLUGS

EPOC

FEATURES

- Class 5, SLC80 27dB
- Disposable, PU foam
- Hearing protection for noise levels to 110dB(A)
- Pairs packaged in individual poly bags
- Qty/Box: 100 corded pairs

PROBULLET™ UNCORTED EARPLUGS

EPOU-10

FEATURES

- Class 5, SLC80 27dB
- Disposable, PU foam
- Hearing protection for noise levels to 110dB(A)
- Pairs packaged in individual poly bags
- Bonus resealable plastic case to store your earplugs
- Qty/Box - 10 uncorded pairs

PROBULLET™ REFILL BAG FOR DISPENSER

EPYU500R

FEATURES

- Class 5, SLC80 27dB
- Disposable, PU foam
- Hearing protection for noise levels up to 110dB(A)
- Uncorded ProBell earplugs
- Sold Individually
- Qty/Bag - 500 uncorded pairs

PROBULLET™ REFILL BAG FOR DISPENSER

EPDS500R

FEATURES

- Class 5, SLC80 27dB
- Disposable, PU foam
- Uncorded ProBullet Earplugs
- Hearing protection for noise levels to 110 dB(A)
- Sold Individually
- Qty/Bag - 500 uncorded pairs

DISPENSER STATION 500

EPDS500A

FEATURES

- Class 5, SLC80 27dB
- Workplace dispenser holds 500 pairs of ProBullet or ProBell Disposable Uncorded Earplugs
- Dispenses one pair at a time
- Sold Individually
- Earplug sold separately

PROBELL™ DISPOSABLE UNCORDED EARPLUGS

EPYU

FEATURES

- Class 5, SLC80 27dB
- Disposable, PU foam
- Hearing protection for noise levels to 110dB(A)
- ProPlug Bell shape disposable earplug delivers maximum comfort
- Brightly coloured offering high visibility and worker compliance
- Superior design makes it easier to insert and reduces tendency to back out of the ear
- Pairs packaged in individual poly bags
- Qty/Box: 200 uncorded pairs

PROBELL™ DISPOSABLE CORDED EARPLUGS

EPYC

FEATURES

- Class 5, SLC80 27dB
- Disposable, PU foam
- Hearing protection for noise levels to 110dB(A)
- ProBell shape delivers maximum comfort
- Brightly coloured offering high visibility and worker compliance
- Superior design makes it easier to insert and reduces tendency to back out of the ear
- Pairs packaged in individual poly bags
- For general and industrial use
- Qty/Box: 100 corded pairs

PROSIL® REUSABLE UNCORDED EARPLUGS

EPSU

FEATURES

- Class 3, SLC80 18dB
- Reusable silicone earplugs
- Hearing protection for noise levels to 100 dB(A)
- Comes in resealable plastic case
- Sold Individually
- Qty/Box: 50 uncorded pairs

PROSIL® REUSABLE CORDED EARPLUGS

EPSC

FEATURES

- Class 3, SLC80 18dB
- Reusable silicone earplugs
- Hearing protection for noise levels to 100 dB(A)
- Comes in resealable plastic case
- Sold Individually
- Qty/Box: 50 uncorded pairs

PROBELL™ METAL DETECTABLE EARPLUG

EPBMDC

FEATURES

- Class 5, SLC80 27dB
- Disposable, PU foam
- Hearing protection for noise levels to 110dB(A)
- Internal metal ball and blue colour are easily detected by visual and automated inspections
- Blue metalised polycord prevents earplugs from falling into sensitive production
- Qty/Box: 100 corded pairs

PROBAND® HEADBAND EARPLUGS

HBEP

FEATURES

- Class 2, SLC80 14dB
- Comfortable, convenient and lightweight headband
- Hearing protection for noise levels to 95dB(A)
- Foam ear pads are disposable and not designed for re-use
- Sold Individually
- Qty/Pack: 1 complete set with bonus replacement earplug pads
- Qty/Box: 50 pairs

PROBAND® REPLACEMENT EARPLUGS PADS

HBEP R

FEATURES

- Class 2, SLC80 14dB
- Replacement earplug pads to suit ProBand Headband Earplugs (HBEP)
- Hearing protection for noise levels to 95 dB(A) when fitted as directed
- Foam ear pads are disposable and not designed for re-use
- Sold Individually
- Pairs individually packaged
- Qty/Box: 50 pairs

PROBAND® FIXED HEADBAND EARPLUGS

HBEP A

FEATURES

- Class 4, SLC80 24dB
- Disposable, PU foam pads
- Hearing protection for noise levels up to 109dB
- Provides wearer the highest level of protection for a headband earplug
- Disposable PU foam pads are ergonomically designed to fit the ear for maximum protection
- Pairs individually packaged
- Sold Individually
- Qty/Pack: 1 complete set with bonus replacement earplug pads
- Qty/Box: 10 packs

PROBAND® FIXED REPLACEMENT EARPLUGS PADS

HBEP A R

FEATURES

- Class 4, SLC80 24dB
- Disposable, PU foam pads
- Hearing protection for noise levels up to 109dB
- Replacement pads to suit the ProBand Fixed Headband earplugs (HBEP A)
- Provides wearer the highest level of protection for a headband earplug
- Disposable PU foam pads are ergonomically designed to fit the ear for maximum protection
- Pairs individually packaged
- Sold Individually
- Qty/Box: 50 pairs

PYTHON SLIMLINE EARMUFFS

EMPY TS

FEATURES

- Class 5, SLC80 31dB
- Hi-Vis for visual identification
- High performance and strong durability through steel wire construction for maximum
- Protection with easy adjustment system for individual fit
- Hearing protection for noise levels to 116dB(A)
- Contemporary low profile design that withstands abuse without compromising comfort

PYTHON EARMUFFS

EMPY T

FEATURES

- Class 5, SLC80 31dB
- High performance and strong durability for maximum protection
- Hearing protection for noise levels to 116 dB(A)
- Contemporary design withstands abuse without compromising comfort
- Solid, lightweight ear cup construction
- High quality ear cushions
- Padded foam headband minimises pressure on the head
- Steel wire provides a robust construction to withstand demanding use
- Increased wearer comfort due to low clamping force

RESPIRATORY GEAR

RESPIRATORY GEAR

BREATHE EASY WITH OUR EXCLUSIVE RANGE OF RESPIRATORY GEAR FOR ANY WORKPLACE SITUATION.

Breathe easier in whatever hazard your work environment presents, by choosing an approved respirators or mask from the ProChoice range. There is a Certified ProChoice model for protection against the majority of airborne workplace hazards.

Our masks are designed for comfort and workplace convenience.

Airborne hazards include dusts, fogs, fumes, mists, gases, smokes, sprays or common vapours. The best form of protection is to eliminate or prevent the hazard by altering workplace practices or accepted engineering control measures.

When controls are not feasible, appropriate respirators must be used.

ProChoice has a full range of tested and Certified products – from disposable masks with a variety of filters to half mask respirators. Flexible ProMesh ensures optimum shape retention for a perfect airtight fit during extended periods of wear

STANDARDS

For your safety and Confidence all prochoice dust masks are Certified to AS/NZS 1716 requirements.

PROMESH RESPIRATOR P2

PC821

FEATURES

- Flexible mesh which ensures optimum shape retention for a perfect, airtight fit during long periods of wear
- P2 rating protects against mechanically and thermally generated particles
- Moulded nose-piece for close fit
- QuickLock straps for easy fit and release
- Resealable Polybag ensuring masks remain hygienically stored
- Qty/Box: 12

PROMESH RESPIRATOR P2 WITH VALVE

PC822

FEATURES

- Flexible mesh which ensures optimum shape retention for a perfect, airtight fit during long periods of wear
- P2 rating protects against mechanically and thermally generated particles
- Moulded nosepiece for close fit
- QuickLock straps for easy fit and release
- ProValve for increased exhalation efficiency and comfort - reduces heat build up under mask
- Resealable Polybag ensuring masks remain hygienically stored
- Qty/Box: 12

PROMESH RESPIRATOR P2 WITH VALVE AND ACTIVE CARBON FILTER

PC823

FEATURES

- Flexible mesh which ensures optimum shape retention for a perfect, airtight fit
- Protects against nuisance-level organic vapours in addition to P2 rating
- Moulded nosepiece for close fit
- QuickLock straps for easy fit and release
- ProValve for increased exhalation efficiency and comfort - reduces heat build up under mask
- Resealable Polybag ensuring masks remain hygienically stored
- Qty/Box: 12

RESPIRATOR P2

PC305

FEATURES

- P2 rating for protection against mechanically and thermally generated particles
- Coloured coded nose-piece and packaging for ease of identification
- Latex free dual straps give firm and comfortable fit
- Resealable polybag ensuring masks remain hygienically stored
- Aluminium free nose clip to reduce the risk of igniting a spark
- Qty/Box: 20

RESPIRATOR P2 WITH VALVE

PC321

FEATURES

- P2 rating for protection against mechanically and thermally generated particles
- ProValve for increased exhalation efficiency and comfort - reduces heat build under mask
- Colour-coded nose-piece and packaging
- Latex free dual straps give firm and comfortable fit
- Resealable polybag ensuring masks remain hygienically stored
- Aluminium free nose clip to reduce the risk of igniting a spark
- Qty/Box: 12

RESPIRATOR P2 WITH VALVE AND ACTIVE CARBON FILTER

PC531

FEATURES

- Protects against nuisance-level organic vapours in addition to P2 rating
- ProValve for increased exhalation efficiency and comfort - reduces heat build under mask
- Colour-coded nose-piece and packaging
- Latex free dual straps give firm and comfortable fit
- Resealable Polybag ensuring masks remain hygienically stored
- Aluminium free nose clip to reduce the risk of igniting a spark
- Qty/Box: 12

RESPIRATOR P1

PC301

FEATURES

- P1 rating indicates suitability for protection against mechanically generated particles
- Colour-coded nose-piece and packaging for ease of identification
- Latex free dual straps give firm and comfortable fit
- Resealable Polybag ensuring masks remain hygienically stored
- Aluminium free nose clip to reduce the risk of igniting a spark
- Qty/Box: 20

RESPIRATOR P1 WITH VALVE

PC315

FEATURES

- P1 rating indicates suitability for protection against mechanically generated particles
- ProValve for increased exhalation efficiency and comfort - reduces heat build under mask
- Colour-coded nose-piece and packaging for easy identification
- Latex free dual straps give firm and comfortable fit
- Resealable Polybag ensuring masks remain hygienically stored
- Aluminium free nose clip to reduce the risk of igniting a spark
- Qty/Box: 12

RESPIRATOR P1 VERTICAL FLAT FOLD

PC9111

FEATURES

- P1 rating for protection against mechanically generated particles
- Designed for easy storage before use
- Individually packed to avoid contamination
- Dual straps give firm and comfortable fit
- Aluminium free nose clip to reduce the risk of igniting a spark
- Qty/Box: 20

NON TOXIC DUST MASK

PC101-10

FEATURES

- A lightweight mask for comfortable, extended wear
- Aluminium nose-piece can be moulded to individual comfort and seal
- Qty/Box: 10 masks

RESPIRATOR P1 - 5PK

PC301-5

FEATURES

- P1 rating indicates suitability for protection against mechanically generated particles
- Colour-coded nose-piece and packaging for ease of identification
- Dual straps give firm and comfortable fit
- Aluminium free nose clip to reduce the risk of igniting a spark
- Qty/Pack: 5

RESPIRATOR P2 WITH VALVE - 3PK

PC321-3

FEATURES

- P2 rating for protection against mechanically and thermally generated particles
- ProValve for increased exhalation efficiency and comfort - reduces heat build-up under mask
- Colour-coded nose-piece and packaging
- Dual straps give firm and comfortable fit
- Aluminium free nose clip to reduce the risk of igniting a spark
- Qty/Pack: 3 masks

- 1x pair PCABEK1
- Sold Individually

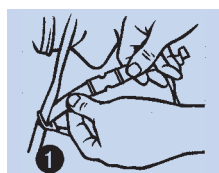

PREFILTER RETAINER CAPS

PCRC

FEATURES

- For use with ProFilter and ProCartridges
- Qty/Box: 1 Pair

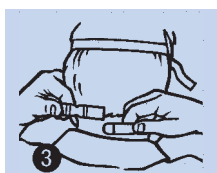

FITTING INSTRUCTIONS

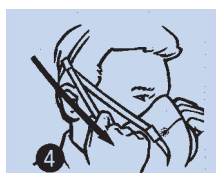

Ensure the elastic is not twisted and that it is secured to all mounting positions, on the valve-cage, rear clips and head cradle. Adjust rear clips to fit approximately. Adjust head cradle to fit top of head.

Place head cradle onto top of head, over crown area.

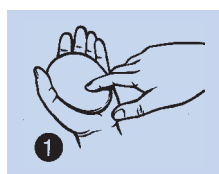

Position mask onto face and clip rear clips together behind neck. Ensure mask sits securely on face.

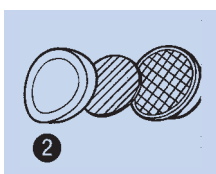

Adjust head cradle clip elastic lengths until fit is comfortable and secure. Chin should fit comfortably into bottom of the respirator. To check efficiency place a piece of card in front of the filters, inhale and respirator should contract sharply.

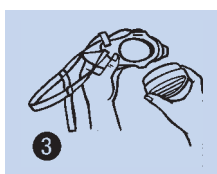

FILTER ASSEMBLY INSTRUCTIONS

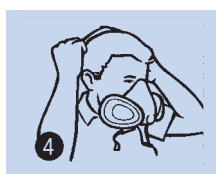

Start assembling the filter.

Attach the cover and shell base with filter contained within.

Attach the assembled filters to half mask body by lining up the arrow on the cartridges to the arrows on the body and twisting until it locks into position.

Put on the harness instructed above.

DUST & GAS FILTER CLASS

TYPE	COLOUR	DESCRIPTION
A	Brown	Organic vapours and gases with boiling point 65°C and above
B	Grey	Inorganic vapours and gases (excluding carbon dioxide/monoxide)
E	Yellow	Sulphur dioxide and other acidic vapours and gases
K	Green	Ammonia and ammonia derivatives vapours and gases
ABEK	Orange, Green, Yellow	Combination filters, all of the above
P		Dust filters

CLASSIFICATIONS

	DUST	GAS
1	Low efficiency	Low capacity
2	Medium efficiency	Medium capacity
3	High efficiency	High capacity

FILTERSPEC™ PRO P2 REPLACEMENT MASK WITH CARBON FILTER

FSPG531

FEATURES

- Protects against nuisance-level organic vapours in addition to P2 rating
- Moulded Nosepiece for close fit
- QuickLock straps for easy fit and release
- ProValve for increased exhalation efficiency and comfort- reduces heat build up under mask
- Qty/Box: 10

MAXI MASK 2000™ HALF MASK RESPIRATOR

HMTPM

FEATURES

- Fully adjustable four point cradle suspension ensuring an effective facial fit
- Low profile angle filter design for minimum visual impairment
- Durable thermoplastic rubber mask for superior fit
- Contour moulded nose for fit with glasses and goggles

PCA1P2

FEATURES

- For use on the Maxi Mask 2000™
- A1P2 cartridges for gas/vapour and combination particulate/ gas/vapour cartridge
- Easy 'lock-on' system to Prochoice Maxi Mask 2000
- Comes complete with a P2 ProChoice Filter and retainer caps
- Qty/Box: 1 Pair

HAND PROTECTION

HAND PROTECTION

SURVEY RESULTS INDICATE THAT GLOVE USE REDUCES HAND INJURY RISK BY 60 PERCENT.

Choosing the correct glove for work can be a very important safety decision. Gloves must be comfortable, fit well, protect against the hazards of a particular task, and provide good grip under working conditions.

ProChoice has the world's most diversified protective glove range for use in manufacturing, building, mining, laboratory, horticulture, food handling, medical and forestry applications.

The most common activities associated with injuries to the hand and wrist are:

- Using a sharp edged tool
- Operating unguarded powered plant or machinery
- Using an unguarded powered hand tool or appliance
- Preparing food with an appliance of knife

STANDARDS

EN420 General Requirements

ACCESSORIES

PROTECTIVE WORKWEAR

PROTECTIVE WORKWEAR

SPECIALISED WORKWEAR TO PROTECT CLOTHING, SKIN AND JOINTS AGAINST WORKPLACE HAZARDS.

There are many classifications and guidelines to consider when choosing your high visibility work wear. You need to consider where and when your high visibility work wear is required. WORKIT Work Wear's ranges of high visibility garments are manufactured to meet the requirements of International Standards.

We understand that in today's workplace you need to be confident that you are meeting your OH&S obligations.

STANDARDS

Independently Certified to
Major International Safety Standards.

- Australian/NZ Standard AS/NZS 2210.3
- American Standard ASTM F2413
- European Standard EN ISO 20345

COLOUR OPTIONS

SPECIAL FEATURES

These symbols display each boot's performance characteristics.

ANTI-STATIC

Boots with anti-static properties are designed to reduce the build up of excess static electricity by conducting body charge to the ground.

WATER RESISTANT

The soling material of all steel Blue Boots is actually waterproof. It is the upper materials and the stitching process that determines the level of water resistance.

STEEL TOECAP

All of the boots with the steel safety toecap feature steel safety feature offer premium protection for your toes.

NITRILE OUTSOLE

The specially designed Nitrile Outsole helps to reduce the build-up of excess static electricity, offering a level of protection against the ignition of flammable materials.

AIRPORT FRIENDLY

Airport friendly safety toecaps are entirely non-metallic. In fact, the entire boot is virtually free of metal components.

CHEMICAL RESISTANT

The special leather used in these boots is caustic soda and sulphuric acid resistant.

FOOT PROTECTION

FOOT PROTECTION

TOUGH BOOTS FOR TOUGH JOBS

WIDE-FIT TECHNOLOGY

For comfort, every Howler boot is designed around a special wide-fit mould. And the wide-profile toecaps are scientifically shaped to create extra room for your toes.

TOUGH OUTSOLE

With either the Thermo Plastic Urethane (TPU) Outsole, or the Nitrile Outsole, our soling materials offer superior abrasion resistance. Both the TPU or the Nitrile outsole helps reduce the build-up of excess static electricity, offering a level of extra protection against flammable materials. Nitrile is also oil and acid resistant, plus heat resistant to 300 °C (572°F), so it takes 30 seconds before the sole reaches melting point. With either the Nitrile or TPU outsole, Howler soles are built to last.
