CEA has a strategic business unit that offers customised supply chain solutions associated with the Agro, Food and Feeds Industry.

We provide transportation, storage, loading, unloading and handling for all Agro related projects and can improve efficiency from the producer to the customer with our own road transportation, warehousing, bulk storage, containerized freight and bulk vessel charter solutions.

Our Agro Logistics unit offers excellent cross-connectivity on major operating routes across Thailand and into our neighbouring countries due to our extensive cross-border transportation knowledge. We move a multitude of products across critical sectors to ensure consistent, on-time performance for our customers. Our services, experience and infrastructure allow for the free movement of goods is a key element in achieving sustainable Agro, Food and Feeds security.
