## Equipment Used

Marine straddle carrier  
Prime mover  
Bespoke boat frame  
Lowbed trailer  
Hiab crane truck

## Services Used

Rigging teams  
Customs team  
Shipping & Export teams

## SCOPE

CEA Project Logistics Thailand was contracted for the transportation, storage and export of a Catamaran Ferry from Chonburi, Thailand to Freetown, Sierra Leone in West Africa.

The ferry was moored at Ocean Marina Yacht Club and was lifted from the water by the on-site Marine Straddle Carrier. CEA Teams were on hand to supervise the lift and to execute the lowering and loading onto a specially fabricated frame that was attached to a standard Lowbed trailer.

CONVOY ENTERS PORT

NIGHT TRANSPORT TO THE CEA FACILITY

Due to the height restrictions on the roads the top section of the ferry was removed and loaded onto a separate trailer. After the CEA rigging teams had secured the ferry to the trailer, the prime mover and its cargo began the 33km journey to Laem Chabang. The ferry, upon arrival, was stored at the CEA Free Trade Zone until the shipping vessel Atlantic Dawn arrived.

IN STORAGE AT THE CEA FACILITY

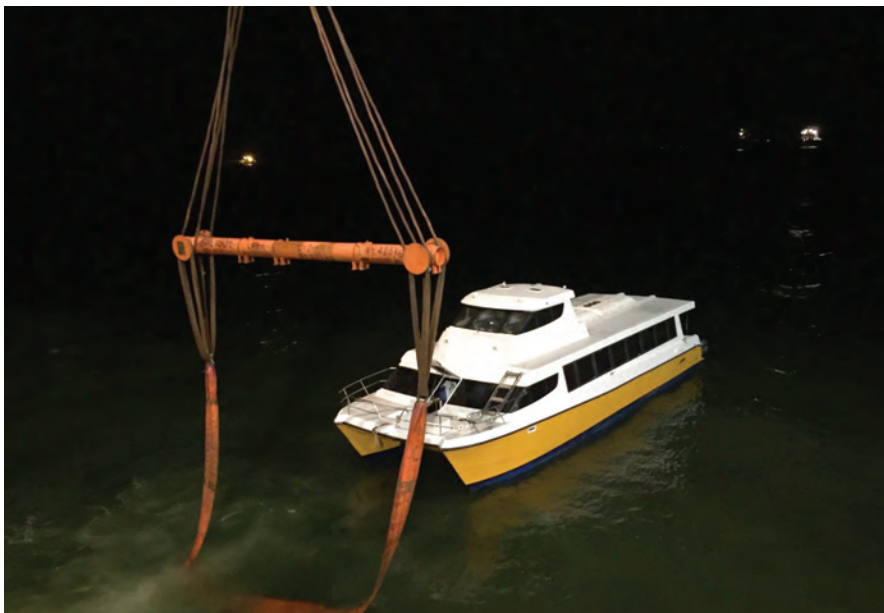

BRIDGE SECTION SECURED ON TRAILER

After seven days in storage, the ferry was transported to Laem Chabang Port under CEA escort and readied for loadout which included the top section being reattached. Port and vessel stevedores executed the loading and stowage aboard the Atlantic Dawn. CEA provided all the necessary shipping and customs documentation in preparation of export.
