- Multi axle hydraulic trailer
- Flatbed trailers
- Drop deck trailers
- Lowboy trailers
- Skeletal trailers
- Extendable trailers

Regardless of the terrain, CEA has the experience and equipment to devise the best solution for transporting a large variety of structures, materials, and equipment. CEA is equipped to handle heavy loads over public roadways, waterways, or through congested work zones using specialized trailers and other transport systems.

We engineer the move, identify the best-suited equipment, and manage all the logistics and jurisdictional-load restrictions. On the ground throughout Asia, we've worked closely with authorities from numerous provinces and countries to allow for routing of equipment through major thoroughfares in congested urban areas to achieve the shortest possible execution time. Every location in our Asia-wide network also offers secure storage.

FEATURED SERVICE FS003
Heavy Transportation 1/2

Whether you require a single flatbed load or multiple low boy trailers, CEA will provide you with professional and experienced personnel. Truck and trailer services are provided with safety and efficiency in mind while keeping our pricing competitive. Our fleet includes an In-Vehicle Management System (IVMS) giving the customer greater insight and control. For over 15 years we have proudly led the industry in customer satisfaction.

CARGO SECURED ON A LOW LOADER SETS OFF FOR SINGAPORE

With years of experience both domestically and internationally, CEA is well-versed in the logistics involved in oversized load transport in both urban and on-site locations. CEA Project Logistics can provide complete transport services including loading, off-loading and erection of components, land to barge trans-loading, transport fixture engineering and fabrication, travel route planning and project engineering consultations. We have become the Asian leader in high volume transportation and cross border transportation specializing in Thailand, Myanmar, Singapore and Malaysia.
