CEA Project Logistics offers one-stop services in warehousing par excellence. Our storage facilities are strategically positioned in the heart of Laem Chabang, Thailand. Our facilities can provide 115,300m² of open gravel hard stand storage and 2,800m² of covered warehousing.

Each of our facilities include state-of-the-art storage and distribution technology and are manned by project cargo professionals. 24 hour security with regular patrols ensures maximum protection. Our warehouse can provide both long and short term options to local, regional and global clients.

RACKING IS AVAILABLE IN OUR WAREHOUSES

FEATURED SERVICE FS007
Warehousing and Storage 1/2

All our facilities come with the highest quality of material handling equipment (MHE), we offer a wide range of Manitou vehicles from 2 to 5 tonne fork lifts and telehandlers, we also provide mobile cranes and container reach stacker's that ensure our warehouses and yards are able to execute any project effectively.

Our flexibility in warehousing enables us to achieve realistic cost savings for our customers. However if the size, complexity or location of your business requires a bespoke solution, we have the knowledge, experience and infrastructure you need.
